Actually they should be on their fixed account number so no they shouldn't change what they are doing to charge Superfund. They are however adding the Site/Project code and there should be folks in the EOC who should be able to assist with this. Otherwise I attached the manual below.

<http://intranet.epa.gov/peopleplus/pdfs/timeandlaborproceduresv7-0.pdf>

It starts on page 32 of 107. I could probably walk someone through it, if I need to.

Thanks!

Actually, he appears to be asking a different question. Do you know the answer? Thanks

Victoria: We certainly have people working on management and community relations re: this spill. But No one in AO has ever (in my tenure) charged anything to a superfund code – Do you

have some insight on how we should approach this?
